

To find the nearest patient service center, visit Labcorp.com or call 888-Labcorp (888-522-2677).

Patient's Legal Name, Sex, Date of Birth, Collection Time, Fasting, Collection Date, Urine hrs/vol, NPI, Physician's ID #, Patient's ID #, Hospital Patient Status, Physician's Name, Physician/Authorized Signature, Genetic Counselor, Diagnosis/Signs/Symptoms, Patient's Address, Primary and Secondary Billing Party, Patient's Signature, Medicare Advance Beneficiary Notice of Non-Coverage (ABN).

Table with 2 columns: TEST # and TEST NAMES, containing various genetic testing options.

Specimen Type, Patient/Parental/Fetal, Maternal blood for MCC, Ethnicities, Indication(s) for Test, Diagnostic, Carrier, Fetal, Abnormal maternal serum screening, Abnormal Noninvasive Prenatal Screening (NIPS), Are parents related (consanguinity).

Prenatal Biochemical Genetics and Cytogenetics table listing tests like AFP, AChE, Chromosome, Amniotic Fluid, etc.

Postnatal Cytogenetics table listing Chromosome, High Resolution, Blood, Routine, etc.

Inborn Errors of Metabolism table listing Amino Acid Profile, Organic Acid Analysis, Acylcarnitine Profile, etc.

Molecular Genetics table listing alpha-Thalassemia, Angelman and Prader-Willi Syndromes, Cystic Fibrosis Profile, etc.

INFORMED CONSENT section with Physician Signature line.

\*Reflex testing will cause additional CPT codes to be billed. Complete test information can be found at Labcorp.com.

+ indicates testing can also be performed on CVS or amnio; ^ indicates CVS or amnio must be submitted for evaluation; # indicates testing can also be performed on amnio.

REV 07/28/2022

## TEST COMBINATION/PANEL POLICY

Labcorp's policy is to provide physicians, in each instance, with the flexibility to choose appropriate tests to assure that the convenience of ordering test combinations/panels does not distance physicians who wish to order a test combination/profile from making deliberate decisions regarding which tests are truly medically necessary. All the tests offered in test combinations/panels may be ordered individually using the Labcorp® request form. Labcorp encourages clients to contact their local Labcorp representative or Labcorp location if the testing configurations shown here do not meet individual needs for any reason, or if some other combination of procedures is desired.

In an effort to keep our clients fully informed of the content, charges and coding of its test combinations/panels when billed to Medicare, we periodically send notices concerning customized test combinations/panels, as well as information regarding patient fees for all Labcorp services. We also welcome the opportunity to provide, on request, additional information in connection with our testing services and the manner in which they are billed to physicians, health care plans, and patients.

For CPT codes please contact the CPT coding department at telephone number 800-222-7566 ext 6-8400 or [www.labcorp.com](http://www.labcorp.com). Please note, correct coding often varies from one carrier to another. Consequently, the codes provided by Labcorp are intended as general guidelines and should not be used without confirming with the appropriate payor that their use is appropriate in each case. All laboratory procedures will be billed to third-party carriers (including Medicare and Medicaid) at fees billed to patients and in accordance with the specific CPT coding required by the carrier. Microbiology CPT code(s) for additional procedures such as susceptibility testing, identification, serotyping, etc. will be billed in addition to the primary codes when appropriate. Labcorp will process the specimen for a microbiology test based on source.
