

GENETIC EDUCATION CHECKLIST

Is genetic testing right for you?

Our practice utilizes Integrated Genetics, a LabCorp Specialty Testing Group, for our genetic screening services. To help you better understand genetics and decide whether testing is right for you and your family, your health care provider suggests you view one or more educational videos from Integrated Genetics. Each video features a genetic counselor who explains basic concepts and the various testing options available.

Understanding prenatal genetic testing options reviews and compares screening options and diagnostic testing options for Down syndrome and other chromosome abnormalities.

Understanding genetic carrier testing options explains genetic inheritance and carrier screening for genetic disorders such as cystic fibrosis and sickle cell anemia.

Complete the steps below and return this form to your health care provider.

<input type="checkbox"/>		Go to www.integratedgenetics.com/videos to view the videos.
<input type="checkbox"/>		Visit Integrated Genetics' website for your cost estimate and personalized payment options and the opportunity to learn about the <i>Moms Helping Moms of Tomorrow</i> initiative www.integratedgenetics.com/transparency or call 844-799-3243.
<input type="checkbox"/>		If testing is ordered, proceed to your local patient service center to have your blood drawn. To find the location nearest to you or to schedule an appointment visit www.labcorp.com/labs-and-appointments .
<input type="checkbox"/>		Sign up for LabCorp Patient™ to access and retain a copy of your results: www.patient.labcorp.com

You may **speak to a genetic counselor to discuss your results** by scheduling an appointment online at www.integratedgenetics.com/genetic-counseling, or by calling (855) GC-CALLS (855-422-2557).

Indicate the tests you would like to discuss with your provider.		Please indicate your provider.
